

Semi-Auto Labeling Machine

The Semi-Auto Labeling Machine can adapt to different size round bottle labeling, such as penicillin bottle, ampere bottle, PET bottle, glass bottle, etc.

Application: sticker label of round bottles, round can, cylinder. Suitable for PET bottle plastic bottles, glass bottles metal bottle, round bottle labeling.

Technical Parameters:

Voltage	AC220V/50Hz, 120W
Labeling Accuracy	±0.5mm (excluding tag artifacts error)
Efficiency	25-50 pieces/minute (depending on the workpiece size)
Label Size	Outer Dia. 250mm, Material Inside Dia.76 mm
Product Size	10-150mm in diameter
Label Width	8-150mm
Label Length	15-315mm
Machine Size	650*450*450mm
Weight	25KG
Above technical parameters for the standard model, if other special requirements and functions can be designed.
