

APC-D905 High Speed Capping Machine

Equipped with three pairs of friction wheels, self-adjust tightness, helpful the caps surface. Wide applicability, it is simple and convenient if change bottles and caps, just, adjust some components. Equipped with human-computer interface and PLC control system, Ensure more stable operation and easier handling. Self-diagnose errors and stop working to make alarm at errors and missing bottles caps. The bottle with twisted cap, anti-cap and without aluminum foil will be removed.

Feature:

- Strong compatibility, suitable for various sizes of cap shape, bottle shape.
- A pair of cap dropping and wearing device suit for all kinds of bottle caps.
- Cap unscrewing torque control, ensure the quality of the screw cap (optional)
- Oscillating swivel wheel, strength is more suitable, greatly reduce the swivel wheel wear
- No bottle or cap, no work. By testing, semi-automatic screw capping machine will wipe out the skew, inverse caps and caps without aluminum foil. Semi-automatic screw capping machine has the function of fault self-examining and any other check warning control functions, so semi-automatic screw capping machine can ensure the continuity and accuracy.
- Operate automatically, intelligently control with the last and next process, with good Harmony. Special operating person is not necessary so it can save labor cost.

Data sheet:

Type	Output	Power supply	Pressure	Consumption air	Net dimensions	Weight
APC-D905	150-200	220V/50HZ/3.0kw	0.6	0.8	3500*1400 *2300	880
