

Plastic and Glass Bottle Screw Capper

This plastic and glass bottle screw capper employs elevator to feed bottles and its capping head can automatically seize and screw caps. In this way, it enjoys high automation degree.

Its main parts are elevator, capper, and controlling system.

Features:

1. Stable bottle feeding and sending, and good cap feeding continuity.
2. liable capping, easy operation, and high reliability.
3. Special need for maintenance.

Main Parameters:

Production Capacity	2500~12000 bottle/hour
Bottle Size	200ml-1000ml glass, plastic bottle
Capping Rate	≥99%
Electric Supply	220V/50hz
Power	2kw
Size	2800×1200×2000mm
