

BZT-400A Automatic Cellophane Over Wrapping Machine

BZT-400A automatic cellophane packaging machine is widely used in multiple cartons or single-box fully enclosed automatic packaging of various box-type articles in the industries of medicine, food, Health care products, cosmetics, daily necessities, stationery and other industries. This machine can be combined with automatic cartoning machine, automatic inkjet printer, automatic labeling machine and other equipment linkage to production.

Feature:

1. The products packaged by the machine have the function of "three anti-three enhancements", namely anti-counterfeiting, moisture-proof and dust-proof.
2. Improve product quality, increase product added value, and improve product appearance and decoration quality.
3. The machine adopts imported PLC control and machine electrical integrated operation system. The utility model has the advantages of reliable performance and convenient use, and is a three-dimensional packaging device for the domestic advanced box-type package collection or larger items.
4. The servo motor controls the film and the color code is automatically tracked. It can use two different packaging films without printing film and printing film.
5. The machine can be customized to package round products, such as round biscuits, round chips and other round products.

Technical Parameters:

Model	BZT-400A
Packaging Speed	10-30 boxes/min
Packaging Material	BOPP film and golden easy-tear film
Packaging Size	L(100-400)*W(50-200)*H(10-100)mm
Machine Dimension	2350×1100×1550mm
Conveyor Dimension	1600x500x850mm
Machine Weight	About 1000kg
Total Power supply	3.7kW
Voltage Supply	380V/(50Hz)
