

Combined Multi-Row Packaging Machine HY-K488

It is suitable for automatic packaging of granules, liquid pastes and powder products in cosmetics, food, health care and pharmaceutical industries. The two machines are packaged in parallel, which is suitable for customers with small sites, large production capacity and little investment in the early stage;

Features:

1. Two-machine parallel design, large capacity;
2. Customized side seals, back seals, one out two or one out four series according to customer requirements;
3. Material: The contact part of the box and material is made of SUS304 stainless steel, which is in line with GMP production.
4. The heat-generating parts and moving parts are hidden in the protective cover, which is safe and reliable.
5. The equipment is equipped with casters for easy handling and movement.

Specifications:

Model	HY-K488
Filling range	1-50ml
Rows	1by2, 1by4
Sachet size	W : 30-100mm L : 30-170mm
Max. film width	220mm
Sachet type	3sides/4 sides/stick
Filling method	Volumetric cups
Capacity	40-160ppm
Power	220V50-60HZ/3KW
Air	0.3m ³ /min 0.6-0.8Mpa
Dimension(L*W*H)	1240*763*1655mm
Weight	450KG
