

## XHL-LT Automatic Adhesive Label Wrapping Machine

This series machine is applied to glass & plastic round bottles. In the field of pharmaceutical, pesticide, chemical, foodstuff etc. It is able to auto separating bottle, feeding label belt, separating label, sticking and auto printing codes. It is equipped with large torque step in motor of servo motor and imported photoelectric controlled PLC to ensure the accuracy, stability, reliability, and high efficiency.

### Technical Parameter:

Applied range:	diameter 16~90mm
Tolerance of labeling quantity:	±1mm
Power supply:	220V 50Hz
Dimension(mm):	1500*70*1200
Production capacity:	50-200 bottles/min(printing 40~160 bottles/min)
Label size:	Inner diameter of label reel:76 mm, max diameter of label reel:300mm,Width of label:20~90mm, Length of label:30~180mm
Power consumption:	0.5kw
Weight:	300kg
