

Semi-Auto Ultrasonic Tube Sealing & Filling Machine CE-006S-HX

Feature:

1. Easy to operate and maintain.
2. Automatic filling, welding, cutting and trimming in one time.
3. Stainless steel machine body, strong and beautiful looks,
4. Sealing mould can be customized according to customer requirements. Can seal many sizes of tubes.
5. Ultrasonic Sealing Machine power source for the pneumatic, working steady, not easy to damage, customers can rest assured use.
6. Ultrasonic frequency can meet international standard, no harmful to human being or environment
7. Can be work in time, not need wait the heat time.

Advantage:

1. It adopts Ultrasonic sealing machine, good for difference products, Such as food, medical, cosmetic products. It will not be hurting the products.
2. Overload protection, phase separation protection, power-fail protection.
3. Large Ultrasonic output power to ensure the sealing quality of various tube size and material.
4. With tube end trimming
5. Easy change working mold for difference tube diameter
6. Adjustable tube length.
7. Machine include a gear pump filler (Good filling precision+- 1)
8. Working performance is stable.
9. The efficient is high.

Technical Parameters:

Model	CE-006S-HX
Brand	FULLWELL
Frequency	20kHz
Power	2kw
Power Supply	AC220V/110V Single Phase 50/60Hz
Filling Range	A: 3-30ML
	B: 6-60ML
	C: 10-120ML
	D: 25-250ML
	E: 50-500ML
Filling Accuracy	±1%
Capaci y	20-28pcs / min
Sealing Diameter	10-50mm (Custom – made available)
Tube Height	10-250mm
Air pressure	0.6MPA
Air Consumption	0.35m ³ /min
Dimension	1300 x 900 x 1550mm
Net Weight	320kg
