

## *DPP-150 Flat Type ALU-ALU Blister Packing Machine*

DPP-150 blister packing machine is special for small pharmaceutical industry and hospital. The machine adopted microcomputer control system, frequency speed changing which is suitable to pack ALU PVC, PVC PAPER material packaging. The machine is easy to operate. It is suitable for packaging capsules, tablets, soft gel, candies, medical equipment, honey and jam, etc.

### **Operating principle:**

1. Adopted servo motor driving, travel scope is adjustable, which is suitable for different blister size packaging.
2. Forming, sealing, batch number printing and punching station position is adjustable.
3. Main transmission parts adopted parallel axis and wheel speed reducer, with novel structure, stable running, low noise which increase lifetime.

### **Main Parameter**

Model	DPP-150
Cutting Frequency (times/min)	ALU PVC 20-50
	ALU-ALU 10-25
Output Capacity (pcs/h)	2000-4000
Travel Scope (mm)	30-110
Max. Blister Size(mm)	150×100×25
Air Consumption(m <sup>3</sup> /min)	≥0.36
Voltage	Customer Made
Power (KW)	6.5
Plastic Film (mm)	150×(0.15-0.5)
Aluminum Foil (mm)	150×(0.02-0.035)
Overall Size (mm)	2450×550×1450
Weight (Kg)	900
