LQ-YL Desktop Counter

Short Description:

1. The number of counting pellet can be arbitrarily set from 0-9999.
2. Stainless steel material for whole machine body can meet with GMP specification.
3. Easy to operate and no special training required.
4. Precision pellet count with special electrical eye protection device.
5. Rotary counting design with fast and smooth operation.
6. The rotary pellet counting speed can be adjusted steplessly according to putting speed of the bottle manually.

Introduction

1. The number of counting pellet can be arbitrarily set from 0-9999.
2. Stainless steel material for whole machine body can meet with GMP specification.
3. Easy to operate and no special training required.
4. Precision pellet count with special electrical eye protection device.
5. Rotary counting design with fast and smooth operation.
6. The rotary pellet counting speed can be adjusted steplessly according to putting speed of the bottle manually.
7. The machine is quipped with dust cleaner to avoid the dust effect on the machine.
8. Vibration feeding design, the vibration frequency of the particle hopper can be adjusted with step-less based on the needs of the medical pellet,
9. LQ-YL-2 : once start with one bottle and automatically to count the next when finished, easy to pick up and put down the bottle by hand.
10. LQ-YL-4 : once start with two bottles and automatically to count the next two bottles when finished, easy to pick up and put down the bottle by two hands and the speed is one time faster.

Technical Parameter:

Model	LQ-YL-2A	LQ-YL-2	LQ-YL-4
Capacity	500-1500pcs/min	1000-1800pcs/min	2000-3500pcs/min
Overall Dimension (LWH)	427mm*327mm*525mm	760mm*660mm*700mm	920mm*750mm*810mm
Voltage	110-220V,50Hz-60Hz,1Ph	110-220V,50Hz-60Hz,1Ph	110-220V,50Hz-60Hz,1Ph
Net Weight	35kg	50kg	85kg
