

High Productivity Tablet Pill Press Machine ZPD-9

This Granulator Machine is suitable for food, medicine, chemical, electronics and other industries to press granular raw materials into circular sheet/block/ball/ring sheet, shaped sheet and other shapes. Not suitable for solid, wet particles, low solubility, hygroscopic raw materials and no particles and fine powder materials pressing. The machine meets the GMP standard requirements.

Technical Parameters:

- Model: ZPD9
- Maximum tablet thickness: 20
- Max. Tablet Diameter: 60 mm
- Capacity: 8100 pcs/h
- Dimension(L*W*H): 1200*950*2000mm
- Weight: 2100kg
