

Bottle Filling Machine BF

FEATURES:

1. Made of SUS#304 corrosion resistant stainless steel and aluminum alloy
2. Filling volume and speed can be adjusted easily PLC control system with HMI touch panel for easy management
3. Memory storage of 15 to 20 sets for future usage
4. Ball-valve shut-off nozzle prevents liquid from dripping down
5. Dipping nozzles can prevent spillage and diminish bubbles
6. Capacity depends on filling nozzles, product and volume.
7. Machine is customized 4 - 12 filling nozzles.
8. It can be optional combined with the capping machine, labeling machine, shrink machine...
9. Piston pump filler is standard equipment, servo filler is optional.

APPLICATIONS:

Shampoo, Engine oil, Motor oil, Hair condition, Lubricant, Water, Sauce and other liquid or paste products, etc..

Model	FB-12
Power	1 phase 220V/50Hz
Volume	20-100ml, 50-250ml, 100-500ml, 250-1000ml, 500-2500ml, 1000-5000ml
Capacity	5000bph
Error	±1%
Air	0.5-0.7Mpa
G.W.	600kg
Size	220x80x180 cm
