

## *Leading Bucket Elevator*

### **Working Principle and Features:**

This Leading Bucket Elevator transmission through the chain hoist driven hopper elevators for vertical transportation and small block granular materials, enhance the capacity, lifting height advantages.

### **Parameters:**

Lifting height	3~6 m
Volume	0.5 m <sup>3</sup>
Lifting capacity	1.5 (m <sup>3</sup> /h)
Specification	According to customer requirements
Material	Stainless steel material, contact parts made with food grade non-toxic plastic
