

## *Automatic Servo Piston Filling Machine HSY-LPP08*

### **Overview:**

#### ***Packaging Versatility***

The HSY-LPP08 are capable of performing filling with multiple standard bottle styles.

#### ***Application Versatility***

The HSY-LPP08 is designed to package an unlimited variety of products, regardless food and non-food products, such as juice, oil, honey, sauces, chemical, and others of liquid form.

#### ***Function Versatility***

Reliable servo motors for all machine functions. From the filling until sealing. The accurate product dosing is performed immediately.

#### ***Material Versatility***

The flexible machine offer various type of bottles options, with freely adjustable on bottle movement and filling position according to product specification.

#### ***Easy Integration***

The modular machine design HSY-LPP08 with various up and downstream interfaces allows for easy integration of dosing devices.

#### ***Module ++***

As part of the Highpack Packaging Technology portfolio, the modular machine design of the HSY-LPP08 allows an easy integration with other packaging equipment such as Counter Indexing Conveyor or case packers for secondary packaging.

### **Machine Design**

The low machine height facilitates a compact product stream, leading to higher speed and increased efficiency and ergonomics.

### **Technical Specification:**

<b>Model</b>	<b>HSY-LPP08</b>
No. of Nozzles	8
Material (Structure)	Stainless Steel 304 and Anti-Corodal Aluminum
Capacity	4 - 10 cycles/min (depending on application)
Max Volume / Bottle	800 ml +/-
Power Requirement	10kw / 415v / 3 phase
Air Consumption	4-10 CFM @ 80psi (demand varies by application)
Filling type	Servo Motor Piston Pump
Type of Seal and Packing Method	Bottles / Canister / Can
Machine Weight	Approx. 1000kgs
Machine Dimension	W 1600mm, L 3380mm, H 2500mm
