

Tabletop Fully Warp Around Labeler NLR-117

NLR-117 Tabletop fully warp around labeler can be widely used in various vertical round bottles. It suits for small production.

Features:

1. Labeling height and angle don't need to be adjusted.
2. Conveyor belt and labeling speed don't need to be adjusted.
3. Advanced sensor detection system ensures labeling quality.
4. No repositioning or timing adjustment is necessary when changing bottle size.
5. Suits for round bottle labeling
6. Stepper motor makes labeling stable and accurate
7. Photocell switch
8. Emergency button for safety.
9. Compact design: can be used anywhere
10. Specifically designed conveyor belts break space limitation.
11. All are made of stainless steel and high quality aluminum alloy.
12. Easy maintenance and longevity.
13. No need to adjust the positions for stopping the labels
14. Made of SUS#304 stainless steel and aluminum alloy frame construction

Specification:

- Labeling accuracy: ± 1 mm (depends on product and label size)
- Labeling speed: 20-50 bpm
- Power requirement: 110/220VAC, 50/60Hz
- Label size: (L) 10-300mm x (W) 10-100mm
- Label reel: Inner diameter: 75mm Outer diameter: 300mm
- Machine size: (L) 850mm (W)830mm (H)410mm

Option Accessories:

- Transparent label sensor
- Date coder
