

## SP-2-1 Vibratory Feeder

Vibratory feeder is for temporary storage and transferring dry, free-flowing food and non-food products to bucket elevator. Their highly sanitary design with fully stainless steel structure make sure the machine fit the most demanding applications The durability, ease of cleaning and backup-free which are good choice for food industries.

- adopts the electromagnetic vibration principle
- convey material to conveyor's hopper evenly
- feeding automatically
- long durability
- low noise
- maintenance free
- custom-made size

### Technical specification:

Model	Feeder
Hopper Volume	150Liters
Production capacity	3-5M3/H
Voltage	AC 220V;50HZ
Power	0.3KW
Machine weight	150KG
Machine Packed Dimension	1
