

HLG-4 Automatic Semi Fluid Filler Machine

Suitable material:

1. It is applicable for packing foodstuff, drinking, dally chemical industry, medicine, oil industry with different viscosity, water aqua, grease, fruit juice etc

Characteristic:

1. It can fill all kinds of PET bottles and glasses bottles.
2. The time, speed adjustment and automatic full flow are finished by PLC system.
3. It is simple operation, lower noise and high precision filling.
4. There is an anti-leaking device in each filling nozzle.
5. In the filling nozzle is an anti leaking device. The body and parts touching the raw materials are made os stainless steel.

Technical specifications:

Type	HLG-4	HLG-6	HLG-8
Filling capacity	100-500 ml	100-500 ml	100-500 ml
Filling speed	600-1200 bottle/min	900-1800 bottle/min	1200-2400 bottle/min
Bottle diameter	50-90 mm	50-90 mm	50-90 mm
Bottle height	90-320 mm	90-320 mm	90-320 mm
Power	0.97 kw	1.3 kw	1.72kw
Air power	0.6Mpa	0.6Mpa	0.6Mpa
Air consumption	200 L/MIN	250 L/MIN	300 L/MIN
Overall dimension	2000×1100×1710mm	2150×1100×1710mm	2440×1100×1710mm
Weight	470kg	550kg	650kg
