

## *High-Speed Sachet Machine BHH-series*

### **General Description**

1. The automatic packaging machine can automatically complete multi-column automatic quantitative measurement, filling, bag making, sealing, cutting, printing date and other functions.
2. Servo motor drives heat-sealed film, stable and reliable, high precision
3. The high-sensitivity electric eye can automatically track the positioning of the printed cursor. When packaging the color-coded packaging material, can obtain complete logo
4. Imported PID digital display temperature control, sealing temperature deviation  $\pm 2^{\circ}\text{C}$
5. The PLC control can be easily set on the touch screen control panel to adjust the packaging parameters. Although it displays production information, it has fault self-alarm, self-stop, self-diagnosis function, safe and easy to use, easy to maintain.

### **3-pair top seal unit**

- Ensure seal strength, no leakage
- Even seal with good appearance

### **Three filling station**

- High speed filling
- Improved filling accuracy

### **Light Walking Beam**

1. Easy computerized specification change
2. Longer operational life span

### **Servo Film Pulling System**

1. High Accuracy in bag length and positioning.

2. Smooth in Film Pulling
3. Lower Friction and operation noise

**Technical Parameter:**

| <b>Model</b>    | <b>Pouch width</b> | <b>Pouch length</b> | <b>Filling capacity</b> | <b>Speed</b> |
|-----------------|--------------------|---------------------|-------------------------|--------------|
| <b>BHH-270T</b> | 50-90mm            | 70-180mm            | 100ml                   | 220ppm       |
| <b>BHH-360Q</b> | 50-90mm            | 70-180mm            | 100ml                   | 300ppm       |
