

## *JFZ-24 Auto Flip Bottle Machine*

This machine is mainly used for PET bottles and glass bottles washing. It is applied to automatic bottle washing in beverage plants, wineries, Sauce vinegar factory, and other food manufacturers. It adopts a series of processes like flexible grasping bottles by powerful machinery, 180 turned bottles, washing, controlling bottles, flip resetting and bottles out, achieving a fully automated production. Continuous tracking bottle is of high efficiency and good washing effect. It can be combined with filling machine, plug printer and other equipment for line use.

### **Technical parameters:**

- ◆ Number of filling heads: 12,16,24
- ◆ Capacity: 1000-3000 bottles/ hour
- ◆ Application bottlenecks:  $\Phi 50$ - $\Phi 100$ mm
- ◆ Application bottle high: 220-350mm
- ◆ Power: 2.2KW
- ◆ Dimension: 1550×1550×1900mm
- ◆ Weight: 1100kg
