## Automatic Plantain Chips Packaging Machine Features:

- The vibrator can automatically adjust the vibration quantity according to different target weight value during rapid weighing, so that the blanking is more uniform and the combination is higher.
- High precision digital weighing sensor and AD module are used for accurate measurement.
- The changeable signal CAN port and error self-diagnosis function greatly improve the troubleshooting time and packaging efficiency.
- According to the characteristics of the measured material, the opening and closing speed and Angle of the material bucket door can be adjusted to prevent material stuck.
- When weighing, it can be set to multiple feeding and sequential feeding to avoid clogging the blanking port with leavening materials.
- The aggregate processing system with automatic sorting function of the plantain chips packaging machine can directly exclude unqualified products.
- All parts in contact with materials are made of stainless steel, clean and sanitary, completely sealed and waterproof.
- According to different operators set different permissions, convenient management.

Model	CK-LK520	CK-LK420
Film width	max 520mm	max 420mm
Bag width	90-250mm	80-200mm
Bag length	80-350mm	50-300mm
Packing speed	10-70bags/min	15-80bags/min
Packing range	150-2000ml	150-1500ml
Film thickness	0.04-0.10mm	0.04-0.10mm
Power	3kw/220v 50-60Hz	2.5kw/220v 50-60Hz
Machine size	1430*1200*1700mm	1400*970*1700mm
Machine weight	650kg	450kg
Air consumption	0.4m <sup>3</sup> /min 0.6mpa	0.4m <sup>3</sup> /min 0.6mpa
