

Semi Auto Capping Machine YCP-60Y

Semi-Automatic Capping Machine is designed for the PET screwed caps, the size of the capping heads are based on the size of the caps.

We can just change the capping heads to suit for different sizes of caps. The torque of the capping heads can be adjustable. With simple construction, low cost but high automation.

Application:

Semi-Automatic Capping Machine is widely used in food, beverage, medicine, chemical, daily chemicals, condiments and etc industries.

Technical Data:

Model	YCP-60Y
Capacity	1200-1500PCS/H
Power Supply	AC 220V 50HZ
Power	200W
Air Supply	0.3-0.5MPa
Air Consumption	100L/Min
Machine Dimension	1450 x 850 x 1600mm
Machine Weight	350kg
