

Semi-Automatic Granule Filling Machine 2DC-2K

This machine is suitable for the quantitative filling of granular products. Such as: pesticide, fertilizer, feed, leisure small food, candy, melon seeds, peanut, essence, and other granular materials.

Features

1. LCD touchable screen.
2. PLC control, easy to operate.
3. High precision electronic weighing scale, high precision.
4. All stainless steel structure, easy to clean and corrosion resistant.
5. Photoelectric induction feeding, fast speed, high precision.
6. Each scale with two vibrating outlets with high speed and precision.

Technical Data

Filling range	20-2000g
Packing speed	0-30 Packs/min
Packaging accuracy	±(0.2%-0.5%)
Weighing hopper	2
Bucket capacity	6L
Power supply	AC220V/50HZ/1KW
Dimension(mm)	(L)1000×(W)650×(H)1900
