

Breakage-proof Biscuits Multihead Weigher CBW-1A20(20)

Breakage-proof Biscuits Multihead Weigher is suitable for weighing fresh fruit, shrimps coated with ice, friable materials (eg. friable biscuits, friable peanuts, etc.).

Breakage-proof Biscuits Multihead Weigher have its own shatterproof device, machine structure is shorter for better drop space of products, making it easy to drop without crashing them.

With silicon on the surface of hopper inside, it can certainly proof the products hit the surface without crashing too much.

Breakage-proof Biscuits Multihead Weigher also have buffer hopper to receive the products before they go through dump gate, it's very reliable.

Features

- ◆ Friendly HMI, similar with mobile phone operation icons, make operation more easily and simple.
- ◆ Chute storage hopper allows materials to slide feeding, which can reduce the impact of materials in the falling process and play a role in preventing breakage
- ◆ The smooth angle of the chute allows the material to slide completely to the next step.
- ◆ All - round to reduce the falling height, so that the material has complete protection

Technical Specification

Model	CBW-1A20(20)
Single Weighing range	10-2000 g
Avg. Accuracy	0.5~2 g
Max.speed wpm	100 wpm
Control panel	9.7 inch color touch screen
Hoppers Volume	2.0L (shatter-proof door), plain plate
Construction material	304 Stainless Steel
Driving system	Step Motor
Control system	Modular control system
Power requirement	AC 220V/110V \pm 10% 50Hz(60Hz)1KW
Options	plain plate/timing hopper/printer/rotary top cone/multi-mouth top cone/reject device/9.7'touch screen
Packaging dimension (mm)	L1925*W1420*H1230mm
Gross weight	680kg
