

## *Advanced Drip Coffee Bag Machine KST-18II*

### **Application:**

- ◆ Coarse Coffee
- ◆ Moderate Coffee
- ◆ Fine Coffee

### **Features:**

- ◆ The working efficiency is 25% higher than general model in the market.
- ◆ Stable packing capacity 50 bags per minute
- ◆ SLIDE DOSER, 0 coffee powder residue, No waste, accuracy keeps to the last second bag.
- ◆ Reciprocating type for envelope better appearance.
- ◆ Multi-functional sensor for alarms, no coffee material alarm, no packing films alarm, Inner empty bag alarm, inner bag connect alarm
- ◆ Extra functions avoid the coffee powder stuck: Vibrator, vertical stirring and material sensor.

**Parameters:**

Model		MD-18II
Working Speed		50bags/min
Sealing Method	Inner parts	Fully 3-sides ultrasonic sealing
	Outer parts	3-sides heating sealing
Weighing System		Slide <u>Doser</u> /Load cell scale/Screw
Bag Size	Inner drip bag	Standard drip coffee: 90 * 74mm
	Outer envelop	120 * 100mm( L *W )
Packing Material	Inner bag	Nylon/Non woven/PET, any that can be sealed by ultrasonic
	Outer bag	Laminated material(such as PE/PET/PP)
Bag Type		Rectangular
Weighing Arrange		8-12grams/bag( based on the material's proportion)
Air Consumption		≥0.6Mpa 0.4m <sup>3</sup> /Min
Power		220V Single phase 50/60Hz
Weight		680KG
Overall Dimensions		1400 * 1060 * 2691mm( L * W * H )
