

## ***GT2T-2Y (GT4T-4Y/GT6T-6Y) Full Automatic Four Heads Liquid Paste Filling Machine Quantitative Bottle Filler***

The automatic piston liquid filling machine is suitable for liquid and cream products with different viscosities. It is widely used in various industries such as daily chemical, food, medicine, oil and so on. This series of machines have compact and reasonable design, simple and beautiful appearance. Adopt German SIKE, Shanghai Airtac pneumatic components, Taiwan Xin Gong pneumatic components, to ensure its excellent quality and lasting stable performance. GT series is easy to maintain, no bottle, no filling, accurate filling quantity, and counting function.

### **Technical Parameters:**

<b>Model</b>	<b>GT2T-2Y</b>	<b>GT4T-4Y</b>	<b>GT6T-6Y</b>
Voltage	110V/220V 50HZ/60HZ 800W		
Filling range	10-100ml,30-300ml,50-500ml,100-1000ml,250-2500ml,300-300ml,500-5000ml		
Filling accuracy	10-40bottles/min	20-50bottles/min	30-70bottles/min
Air pressure	$\leq \pm 1\%$		
Filling speed	0.5-0.7Mpa		
Weight	220kgs	260kgs	300kgs
Dimension	210x86x146cm	260x86x146cm	320x86x146cm
