BF-120 Automatic Monodose Blister Thermoforming Filling Sealing Machine

BF-120 automatic monodose blister thermoforming filling sealing machine can form, fill and seal mono dose containers and vials automatically. The unit dose capacity is from 1 to 50 ml.

It applies in section of food, pharmaceutical, personal care and chemical industry.

Features:

- Form monodose containers, fill, emboss lot numbers, indent, cut and slit automatically.
- Controlled by PLC and touch screen.
- Adopt different filling system according to product and dosing requirements.
- Accurate filling without leakage, foam or overflow.
- Made of stainless steel AISI 304 and 316L.
- Adopts well-known brand electrical and pneumatic equipment.
- Manufactured in accordance with GMP standard.

Technical Data:

Model	BF-120
Packing capacity	1-25 cycles/min
Filling range	1-50ml
Max. forming depth	12mm
Filling nozzle numbers	5
Power voltage	380V 50/60Hz 3phase
Power consumption	4.5 kW
Air pressure	0.5-0.8Mpa
Air consumption	≥0.3 CBM/min
Forming material	PVC/PE, PVC/EVOH/PE, PET/PE, PET/EVOH/PE, thickness 0.2-0.4mm
Forming material width	120mm
Machine shell material	Stainless steel
Overall dimensions	L2300 x W850 x H1400mm
Overall Weight	900kg
