

CZ-6 Full Automatic Weighing Type Filling Machine

CZ-6 full Automatic Weighing type filling machine is suitable for liquid barrel packaging. Each filling unit has high-precision weighing sensors, control instruments and filling speed control valve, which can adjust the filling speed as required.

Technical Parameter

- Applicable barrels: min. 140×200×320 mm, max. 260×290×500 mm
- Measurement accuracy: $\pm 0.2\%$
- Filling capacity: 5-30 kg
- Production capacity: ≤ 600 barrels / hour
- Rated pressure: 0.5-0.7 MPa
- Air consumption: 120 liters / min
- Voltage: - 380V, 50Hz
- Total power: 2 kilowatts
- Weight: about 800 kg
- Outside dimensions: 2900×1350×2300 (L×W×H) mm
