

10 Head Multihead Weigher MK-A10-1-1

The 10 head multihead weigher has a weighing range of 10-1200g and a maximum packaging speed of 65bags/min when used together with the vertical bagger. This weigher is perfect for a variety of granular, sheet, strip and irregular products such as confectionary, potato chips, jelly and more.

The 10 head multihead weigher is adjustable within the target weight, meeting customer requirements for packaging different materials.

Features:

- Clean and safe: The multihead weigher features an IP64 waterproof and dust-proof design. 304 stainless steel is used to guarantee food hygiene and safety;
- The related several hoppers for target weight can be set in a successive filling mode to efficiently solve loose material clogging problems;
- Using a computer algorithm, the perfect combination for the target weight is quickly obtained from numerous combinations;
- A strong data statistics function automatically records the total weight, total package counts, pass percentage, and other indexes of each batch of packages.

Technical Parameters:

- Model: MK-A10-1-1;
- Weighing range: 10-1200g;
- Weighing accuracy: $\pm 0.5-2.5g$;
- Max speed: 65bags/min;
- Bucket volume: 2500ml;
- Drive mode: stepper motor;
- Controller: 7 inch touch screen;
- Power: 220V/1000W/50 60HZ/10A;
- Size: L1620*W1100*H1100;
- Weight: 420kg.
