

CMZ Semi-automatic Packaging Machine

The CMZ semi-automatic packaging machine is composed of automatic filling parts, bag parts, sewing parts and control parts, which can realize automatic metering, filling and sewing functions.

The equipment is suitable for explosive packaging with good fluidity. It has the characteristics of fast packaging speed, high precision, corrosion resistance and anti-interference.

Specification:

- Applicable materials: powder explosive
- Packing speed: 5-7 bags / minute
- Weighing range: 20 kg to 50 kg
- Measurement accuracy: $\pm 5\%$
- 2 operators of the entire line
