

## Vial Filling and Capping Machine

### Brief Introduction:

This machine is suitable for filling and capping small dose bottles. It is with function of automatic filling--cap feeding--cap closing.

Filling system can be made according to different product such as shampoo, lotion, hair condition, nail polish, essential oil etc.

Capping device also can be made for different type caps like screw cap, press cap etc.

Whole machine is controlled by PLC, and with touch screen operate system, it is stable and convenient in performance.

It is widely used through foodstuff, pharmacy, cosmetic, daily chemical, fertilizer and chemical industries.

### Parameter:

Item	Parameter
Speed	20-40Pcs/Min
Filling Range	5-50ml
Filling Accuracy	$\leq \pm 1\%$
Capping Accuracy	$\geq 99\%$
Air Pressure	0.4-0.6Mpa
Power	1.2Kw
Voltage	AC220V,50/60Hz
