

## DHC1200 Vials Blister Packing and Cartoning Packaging Line

DHC-1200 Blister and cartoning Produce line is the first domestic packaging speed more than 1000 bottles / minute, suitable for various types of vials intelligent automatic blister packing and vertical cartoning.

- Excellent operational performance and efficient product output
- High-efficiency feeding system
- Modular design of the mold, with quick change function
- Suspension structure, meets with the structure of the human body engineering, with Intelligent interface
- Easy to clean and clear, with smooth surface and no dead angle.

### Technical parameters

Max Output :	≤120cartons/min ≤1200 bottles/min
Max Forming area and depth:	245 x 130 x 35mm
Leaflet size	(100-200)x(100-150)mm
Leaflet material	50-70g/m <sup>2</sup>
Carton size	(65-200)x(25-60)x(15-60)mm
Carton material	250-350g/m <sup>2</sup>
Power:	380V 50Hz 8Kw(200V, 60Hz)
Air compressor:	0.6-0.8Mpa ≥ 0.8m <sup>3</sup> /min
Weight:	4500kg
