

Multi-head Vertical Packing Machine CH-220

Contains:

1. CH-220 Host or CH200 host
2. Ten-head Computer combination scales
3. Z-type conveyer
4. Vibration-actuated feeder
5. Support Platform
6. Product conveyor.

Features:

1. Automatically finish the process of weighting, filling, printing date and outputting.
2. It has the advantages of high accurate weighting, high efficiency, and no broken material.
3. Less manpower, less waste, easy operation and maintenance.
4. Range of application: packing of the irregular shaped and fragile product.

Voltage/power	AC220v/50-60HZ/2.2kw
Power of vertical-seal heater	500W/220VAC
Power of the Horizontal-seal heaters	800W/220VAC
Packing material	OPP/CPP, CPP/PEMST/PE, PET/PE
Thickness of the thin film	0.05-0.08 mm
MAX width of the thin film	420 mm
MAX dimensions of the bag	300 mm*200 mm
Packing rate	50-60 bags/min
Weight	600 kg
Air Pressure	6.5 mpa
Air consumption	600 l/min
Dimensions	4800*800*1500 mm
