

ZL Series Rotary Type Packaging Machine for Pre-Made Bag

In the dynamic realm of manufacturing and packaging, efficiency and accuracy are the epitome. One of such technologies at its forefront is the ZL Series Rotary Type Packaging Machine for Pre-Made Bags.

The workings of the ZL Series Rotary Type Packaging Machine are simply amazing; it was designed in such a way that makes the packaging process efficient like no other.

Technical Specification

Machine Model	L Series Rotary Type Packaging Machine
Bag Types Supported	Pre-made bags: Stand-up, flat, zipper, spouted, etc.
Bag Dimensions	Width: 80mm – 300mm Length: 100mm – 400mm
Speed	Up to 80 bags per minute (depending on bag size)
Power Supply	220V/50Hz or 380V/60Hz, 3 phase
Power Consumption	6 kW
Air Pressure	0.6 MPa (87 psi)
Air Consumption	0.8 m ³ /min (28 CFM)
Machine Weight	1500 kg
Machine Dimensions (LxWxH)	2200mm x 1600mm x 1900mm
Material	Stainless Steel 304
Control System	PLC (Programmable Logic Controller)
Touchscreen Interface	12-inch color touchscreen
Bag Feeding	Manual or automatic
Filling System	Piston filler, auger filler, or weigh filler
Sealing Type	Heat sealing or ultrasonic sealing
Packaging Material	Laminated films (PET/PE, PET/AL/PE, etc.)
Safety Features	Emergency stop button, safety sensors, guardrails
Optional Features	Date coding, nitrogen flushing, zipper applicator, etc.
