

Four-Head Computer Weigher RZKL-4

Accessory equipment for preformed rotary packaging machine suitable for weighing granule and powder, provide high speed

Applications for Four-Head Linear Weigher:

grain, rice, coffee bean, sesame, MSG, capsule, seed, condiment, granulated sugar, salt, chicken essence, melon seeds, nuts, pet foods, washing powder, pesticide, fertilizer, feed, milk powder, coffee powder, food additives, condiments, tapioca powder, coconut powder, pesticide powder, fertilizer granules, etc.

Main Features of Four-Head Linear Weigher:

4-head linear weigher is suitable for weighing granule and powder.

1. High speed and high precision
2. Microcomputer control system, with dual vibration feed, easy to operate.
3. All parts made in stainless steel, anti-corrosion and dustproof, easy to clean.
4. Used separately or combined with packing machine or other packing related equipment.

Main Specification:

Model	RZKL-4
Max Load	1000g
Weighing Accuracy	0.5-1g
Weighing Speed	50 bags/min
Total power	1KW
voltage	220V single phase 50/60HZ
Weight	220KGS
