

PSF-3 Vibration Powder Sifter

This machine is specially designed for stored cosmetic powder material and raw material's sifting and grading.

Features

- ◆ It adopts high efficiency vertical vibration motor.
- ◆ Parts contact with material adopts sanitary grade SUS304 or SUS316L.
- ◆ Top blending function increase the working efficiency, mixing speed adjustable.
- ◆ The high tension screen is easy to be replaced.

Technical Parameters

Model	PSF-3
Outer dimension	470*744*1042 mm
Voltage	AC380V(220V), 3P, 50/60HZ
Power	0.75 KW
Screen diameter	550 mm
Screen mesh	40/60 mesh
Weight	45 KG
