

Shrink Sleeve Packaging Machine BSF-7030XA

Businesses that need quality, professional packaging at affordable prices often rely on shrink wrapping. Using polymer plastic film to wrap tightly over whatever product needs covering, shrink wrapping can accommodate almost any variety of product, ranging from foodstuffs to books, boxes, toys, and many more.

Shrink Wrapping Machine is able to fully eliminate different types of shrink wrapping problems which can result in the poor quality of packaging. It has got simple as well as excellent mechanical adjustments and operates at excellent speed. It operates in a trouble-free manner and is customizable as per requirements. Besides, we are offering this at market leading price. Our shrink wrap services are available for projects of virtually any size. Equipped with different manufacturing machines, we provide customers with access to the industry's most advanced shrink wrapping machinery. This equipment allows us to offer efficient, high speed shrink wrapping at an excellent value.

- Adopts world advance components, stable and durable.
- Sealing cutter is specially designed; sealing line is firm, without cracking, and without sticking to the knife.
- Automatic feeding, product pushing, film feeding and sealing.
- Operation is easy and simple.
- According to different bottle shape, design feeding device.
- Suitable for PE shrink film.
- Comes with intelligent temperature controller for stable performance.
- Large power conveyor motor with steeples speed regulating.
- Comes with smooth feeding action.

Parameters:

Model	BSF-7030XA
Voltage(V/Hz)	380/50(3PH)
Air Pressure Required (kg/cm ³)	7.0
Power (kw)	2
Capacity (PCS/h)	8-15
Max Packing Size(L×W×H)(mm)	U500×300×330
Sealing &Cutting Size(L×H) (mm)	700×330
Infeed Conveyor Height (mm)	850±50
Film Used	PVC、PE
External Dimension (L×W×H)(mm)	1360×2120×1900
Net Weight (kg)	380
