

## MD-420Y Automatic Liquid Packaging Machine

- Fully automated operation and integrated packaging process, more efficient and simpler.
- Electrical accessories are all from well-known brands at home and abroad, with long life and high stability.
- The mechanical parts are all of high quality, with low loss and durability.
- The film release structure is simple and has an automatic correction function.
- With advanced software, easy operation, extensive customization, and top-quality hardware, this liquid packaging machine operates more efficiently.
- Mainly suitable for packaging various liquids in food and chemical products, such as milk, cooking oil, chili sauce, ketchup, pulp, shampoo, sauce, jam, pot base, Shower gel, etc.

### Features

1. Multi-language interface, easy to understand.
2. Stable and reliable PLC program system.
3. Ten storable programs, easy to replace.
4. Accurately positioned servo film pulling system.
5. Vertical and horizontal sealing temperatures are controllable, suitable for various films.
6. Various packaging styles, stable performance and beautiful cutouts.
7. Synchronization of blanking, bag making, sealing and coding.

### Parameters

Model	MD-420Y		
Production Efficiency	10-60 bags/min		
Bag Size	L: 50-300 W: 50-200mm (customizable)		
Packing Accuracy	(depends on materials)		
Power Supply	2.2kW/220V	Air Consumption/Pressure	6-8bar/0.3m³/min
Machine Dimensions (L.W.H)		Machine Weight
