

## ***BF-320/430/520 Stand-up Quad Seal Packaging Machine***

This Dustial Machinery Stand-up Quad Seal Packaging Machine is used for making a four sided “Quad” seal bag. The seal is on one of the corners of the bag and the other three sides are sealed to create a stand up pouch with block base, better for shelf display. Speed up to 50 bags per minute.

Compared with the traditional pillow-type bag-making packaging machine, the bag shape is more beautiful. The four-corner seal bag has a larger and more intuitive space for advertising printing than the pillow-type bag. The flat-bottom self-supporting bag shape is more conducive to shelf display. Candy, chocolate, dried fruit, pet food and other products that need to be placed independently are even more superior.

### **Feature**

- Stainless steel frame
- PLC control with touch screen interface for easy operation
- Electronic temperature control
- Servo driven film pulling
- Servo driven end sealing
- Date printer is automatically set
- Mark sensor for registration film
- Quickly format changes, no tools required

**Technical specifications:**

<b>Model</b>	<b>BF-320</b>	<b>BF-430</b>	<b>BF-520</b>
Film width	260-320mm	260-430mm	280-520mm
Bag length	50-230mm	60-300mm	70-350mm
Speed	Max. 50 bpm	Max. 48 bpm	Max. 45 bpm
