

CJL-3000A Automatic Front and Back Labeling Machine (Sticker Type)

The labeling equipment CJL-3000 series is suitable for self-adhesive labels for square bottle double side labeling procedure. One side labeling procedure is also applicable by function selection.

The entire control system is computerized to adjust major devices automatically by detecting object container and label dimensions.

This benefits machine operation convenience and user friendly.

Specification

Model	CJL-3000A	CJL-3000B
Machine Dimensions (LxWxH)	2400x1400x1416 (mm)	
Labeling speed	10-200 Label/min	
Label Length	10-340mm	
Label Height	20-135mm	20-200mm
Product Height	40-320mm	
Product Thickness (Diameter)	30-120mm	
Label Reel (ID)/(OD)	76mm/360mm	
Power Consumption	220V Single phase, 50/60HZ	
Machine Weight	380KGS
