

HC—210G Horizontal Premade Pouch Packing Machine

The machine is an automatic packing machine for premade bags. It can meet the requirements which need different specifications, big or small volume but small capacity. It can not only pack 3-side or 4-side sealed bags, but even also bags with hanging holes, standing pouches and shaped bags, and daypack bags with corner spouts, etc. It is applicable to powder, granules, liquid, paste and blocks, etc by using different measuring devices. It is convenient to switch the packing type.

Features:

1. Equipped with different metering devices, it can realize packing different materials such as powder, liquid, granules, sauce, etc.
2. Various bag types, it is very easy to change.
3. Simple in structure, easy to operate
4. Main electrical components are from Mitsubishi Japan, Schneider France, Keyence Japan, and so on.
5. Sealing's with hot seal and cold sealing with smooth sealing effect
6. No bag open, no fill and seal to save premade bags
7. Hang hole cutting and top spout adding are optional.

Technical Parameters:

Model	HC-210G
Type Of Pouch	3/4 side seal/stand pouch
Min. Pouch Size	100 x 120mm
Max. Pouch Size	220 x 300mm
Packing Speed	< 60 pouch per min.
Packing Range	max. 1000ml
Filling Station	2
Power	3.5KW
Volt	380V 3P 50Hz.
Air Consumption	300L/min
Air Pressure	0.7 MPa.
Machine Weight	1000kg
Machine Dimension	2600 x 1000 x 1300mm
