

HC 400 Horizontal Carton Packaging Machine

HC 400 is a horizontal carton packaging machine in a continuous motion, in which is capable of producing up to 400 cartons per minute. This model reaches the optimum production while applicable to variety types of products. By incorporating an industry standard PC control system with touch screen, machine operation and production can be easily managed.

Features

- Continuous motion
- 15 continuous motion pushers for product inserting with overload detection device
- 4 heads rotary carton feeder for carton forming
- Industrial standard PC control system
- GMP compliant design
- Available for 21 CFR Part 11

Specification

Model	HC 400
output	400 cpm
mode of operation	continuous motion
carton size	A: 30 - 100 mm
	B: 15 - 70 mm
	C: 70 - 150 mm
