

## ***BFGF-series Full Automatic Liquor/Drinking Water/Spirit/Wine Glass Bottle Filling Machine***

This glass bottle filling machine adopts advanced SIEMENS programmable logic controller (PLC) to control the automatic running of the machine. The input bottle adopts air conveying device; the output bottle adopts adjustable speed way, which combines with the transducer of the host machine making the output bottle running more stable and reliable. The photoelectrical inspection of the running condition of various parts makes a higher automation and convenient operation. It is the ideal first-choice equipment of beverage manufacturers.

### **Technical Parameters**

Model	Washing	Filling	Capping	Capacity (b/h)500ml	Motor power (KW)	Overall dimension(mm)
	heads	heads	heads			
BFGF14-12-5	14	12	5	2000bph	1.5KW	2100x1400x2500
BFGF18-18-6	18	18	5	3000bph	2.2KW	2460x1720x2650
BFGF24-24-6	24	24	6	4000bph	3KW	3100x2100x2650
BFGF32-32-10	32	32	10	6000bph	4KW	3500x2500x2650
BFGF40-40-10	40	40	10	8000bph	7.5KW	4600x1800x2650
