

## *DZQ-850/2SE Hot Selling-Food Automatic Vacuum Sealer Machine*

The DZQ-850/2SE double-chamber vacuum packaging machine is suitable for vacuum sealing of various heat-sealed packaging and is a large-scale, highly efficient and high-performance machine. It is highly suitable for use in large-scale meat processing plants, slaughterhouses, large factories, etc.

### **Product Description**

#### **Advantage**

- This vacuum machine can be optionally equipped with a BUSCH pump. The standard is a 200-cubic-meter vacuum pump, and a larger and stronger vacuum pump can also be selected as an option.
- This meat vacuum packing machine adopts pneumatic opening and closing of the cover and works fully automatically, saving time and effort.
- This machine is equipped with an independent waterproof electrical box to ensure its normal operation in a humid environment or after cleaning.
- This industrial vacuum packing machine is controlled by PLC, is easy to operate and convenient to get started with.
- This double chamber vacuum packing machine can ensure long-term, uninterrupted and highly efficient operation, making it an excellent choice for various large factories, food processing industries, slaughterhouses and other customers.

## Description

Unlike ordinary double-chamber vacuum machines, this machine adopts a pneumatic flap setting. Why is there such an upgrade? The main advantages are as follows:

- 1) The lid of the large double-flap vacuum packaging machine is relatively larger and heavier. After using the pneumatic flap setting, it can save a lot of manpower.
- 2) The pneumatic flap setting can be carried out automatically, which means that the vacuum machine has truly achieved fully automatic operation.
- 3) It is more efficient and convenient, allowing operators to master the operation after a simple learning process.

## Technical Parameters

Model	DZQ-850/2SE
Voltage	3phase 380V 50Hz
Pump Power	4kw
Pump Capacity	200m <sup>3</sup> /h /Option
Sealing Length	850mm (x4)
Sealing Width	10mm
Cover Size	965x770x210mm
Dimension	1995x923x1120mm
Weight	≈655kgs
Certification	CE ISO
