

## *FM5540 Film Shrink Packing Machine*

The FM5540 2 in 1 manual L sealer shrink machine is suitable for packing boxes, toys, electronic bricks and so on. The two machines can pack the products with a layer of plastic film, which makes the packaging more beautiful and firm.

The 2 in 1 POF film shrink packing machine is just that. This one-step shrink wrap system cuts and seals film around a product and heat shrinks it all at the same time! This compact machine is easy to move around and can be used for packaging food, software, CDs, DVDs and more. It can be used with both PVC and Polyolefin film. The All-in-One also features a magnetic hold down for quicker packaging. It also features a pinwheel hole punch for perforating the film and includes casters for portability.

### **Features**

- 1> Sealing and Shrinking completed one time.
- 2> Sealing and shrinking visible through transparent hood.
- 3> Teflon coated sealing blade.
- 4> Wraps up to 4 pcs per minute
- 5> Full size centrally-folded film adopted
- 6> Chamber height adjustable
- 7> Heavy-duty, casters for mobility and portability
