

SUNHAN

SH-AFCL8 Automatic Roll-on Bottle Deodorant Perfume Oil Serums Filling Capping And Cartoning Machine Line

Main Feature

- ▶ This machine line can finish bottle feeding, liquid filling, roller ball pressing, outer cover feeding and tightening and cartoning automatically.
- ▶ Filling is controlled by peristaltic pump, liquid will only pass through the hose. Suitable for packaging deodorants, antiperspirant, essential oil, perfume, etc.
- ▶ This machine can be equipped with leaflet feeding function.

Parameter

Monoblock Filling Capping Machine

- Machine Model: SH-AFC11
- Voltage: 220V/110V 50-60Hz
- Power: 2500W
- Filling Pump: Peristaltic pump
- Working Speed: 20-25bottles/min(dependent on bottle size and liquid)
- Max Flow Rate: 4L/min*2(based on water)
- Suitable Bottle Size: Customized
- Bottle Cap Diameter: Customized
- Package Size: About 2040*1660*1650mm
- Package Weight: About 535kg

Cartoning Machine

- Machine model: ZS-MSZH50
- Power supply: 110V/220V/380V
- Power: About 1.5KW
- Work efficiency: About 30-50 pieces/min
- Paper box quality requirements: 300-450g/m³(350g/m³ will be best), carton indentation is not less than 0.4MM, with pre-folding effect, no glue leakage in the box
- Suitable box specifications: About 90-200*30-80*20-50mm(L*W*H)(Can be ordered according to customer requirements)
- Optional Functions: Leaflet placing/gluing/date coding
- Air pressure: 0.6-0.8Mpa
- Air consumption: 130 L/H
- Machine size: About 2800mm*1360mm*1600mm(L*W*H)
- Package size: About 3080*1690*1820mm
- Package weight: About 1095kg
