

SED-80LZH-C Stainless Steel Vertical Automatic Cartoning Machine

SED-80LZH-C automatic cartoning machine is a high-tech product integrating light, electricity, gas and machine, which greatly improves the performance and work efficiency of the equipment, realizes the requirements of fast cartoning, and still maintain a stable and reliable state when working fast.

This model is suitable for automatic feeding and packing of various types and specifications of items (it can also be bottled or packed with aluminum-plastic panels). The feeding mechanism is easy to adjust, and the number of editions to be boxed can be arbitrarily by touch screen operation. The whole process is completed automatically such as online material transportation and testing, manual folding (1 to 4 folding and transmission), material into the box, stamping batch number, paper tongue sealing at both ends of the carton (also applicable to hot melt glue), missing material removal and finished product output, etc.

Features

1. International famous brand of electrical component such as PLC, touch screen and frequency inverters, etc.
2. Adopt human-machine operation system.
3. Automatically stop when machine is overload.
4. Automatically reject lacking of package product and leaflet.
5. Automatically display trouble, alarm and count finished products.
6. Stable performance, operation is easy.

Machine Parameters

Model		SED-80LZH-C
Encasing speed		60-80 boxes /min
Box	Quality requirement	250-350g/m ² 【Base on carton size】
	Dimension range(L×W×H)	(65-150)mm×(30-85)mm×(12-45)mm
Leaflet	Quality requirement	60-70g/m ²
	Unfolded leaflet specification	130mm× 90mm
	Fold range	【1-4】 Fold
Compressed air	Working pressure	≥0.6mpa
	Air consumption	120-160L/min
Power supply		380V 50HZ
Main motor power		1.5kw
Machine dimension(L×W×H)		1200mm×990mm×1700mm
Machine weight		1100kg
