

RJWJ-PY stirred with liquid equipment

This series of open-pot is stirred with liquid capsules of the production process of liquid ingredients, such as sedimentation and mixing processes in the equipment, with a folder dwelling size, insulation type.

Technical Parameters:

Project / volume (liters):	200L	300L	500L
Working temperature:	0-100°C	0-100°C	0-100°C
Motor Power:	1.5KW	2.2KW	4KW
Stiring speed:	33-50rpm	33-50rpm	33-50rpm
Dimension:	φ850x1900mm	φ950x2100mm	φ1150x2300mm
