

## *HM SF (1/2/3) series Vibro Sifter*

**Usage:** continuous sort different size granules to output required similar size granule

**Suitable:** dry powder materials

**Not suitable:** sticky materials

**Working principle:** adjustable eccentricity heavy hammer produce centrifugal force to sort different size granule

**Range:** granule 12-200 mesh

**Model difference:** HM SF1 series, one output;  
HM SF2 series, two output;  
HM SF3 series, three output.

**Model:** HM SF (1/2/3)-500/1300/2000

**Capacity:** 60-500/60-1300/180-2000 kgs/h
