

Linear Hot Melt Labeling Machine YYRRJ12000

Equipment production

Automatic hot melt glue labeling machine, which is widely supplied for different material of container and label. The label cost is comparatively lower; it can meet the requirements of those users who have variety of the containers. It is the most economical models in cost to make mass production. The equipment has massively used modularization design concept to make it easy and simple for users to change the bottles.

Applicable bottle types

Hot labeling machine is our company's new product to meet the abroad market, apply to round bottle of food, medicine, chemical, and other industry.

Feature

- 1) Delivery labeling is controlled by servo motor.
- 2) The labeling is cut accurately.
- 3) It is easy to exchange the labeling cutter.
- 4) Exchange parts is less and quickly.
- 5) Check the labeling quickly and don't waster the labeling.
- 6) 1 kg hot melt may use 60000-100000 bottles and reduce the cost.
- 7) The label material is OPP, and save cost 1/3.
- 8) The machine power is 9 KW. So save electric resource.

Technical Specification:

Model	YYRRJ12000
Bottle type	Glass bottle, plastic bottle
Product speed (b/h)	12000 (as per 500ml round bottle)
Label material	OPP/ Pearl film/composite paper
Accuracy error (mm)	±0.5mm
Label size (mm)	(L) 20-300mm (H) 10-180mm
Bottle size (mm)	Outer diameterφ40-φ80mm heght30-200mm
Label inner diameter (mm)	Φ150mm
Label outer diameter (mm)	Φ500mm (big)
Voltage (v)	220
Power (kw)	9
Air compressed pressure (bar)	Min5.0bar Max8.0bar
Air consumption	0.2M ³ /minute
