

Automatic Carton Case Sealing Machine FJ-6050A

Carton sealing machine adopts the adhesive tape to seal the carton. It is fast and easy to adjust. It can finish the action of the upper and down sealing in one time. It can also use the printing adhesive tape to improve the product image. It is the first choice for the automatic packaging enterprises. The key part of the sealing machine is the drive motor; the larger the motor power is better. Light and durable, easy to operate. Tape carton sealing machine is mainly applied to carton packaging, can stand operational results, but also with supporting the use of pipeline, widely used in household machinery, textiles, foodstuffs, department stores, pharmaceuticals and chemicals industry. Carton sealing machine is affixed to the tape sealed cardboard box seal, fast and easy to adjust the economy, can be completed on a up and down sealing action, adopt the printing tape, but also improve product image.

Technical Parameter:

MODEL	FJ-6050A
TAPE SIZE	48-60mm
PACKING SIZE	1170*1000*1190MM
POWER SUPPLY	AC220V/50HZ 110V/60HZ
SEALING LENGTH	>200mm
NET WEIGHT / GROSS WEIGHT	168kg/228kg
MOTOR POWER	120Wx2+90W
SEALING WIDTH	100-500mm
CONVEYING SPEED	<20M/min
SEALING HEIGHT	110-650mm
