

Automatic Horizontal Case Unpacking Machine JT-HK2400

Feature:

1. Machine includes sealing with hot glue.
2. Automatic alarm system when it has not enough hot glue or cartons;
3. Horizontal carton infeed with randomly carton supplement;
4. Easy operation with easy adjustment, no carton breakage;
5. Carton erecting and sealing is driven by variable motor with frequency;
6. Suitable for hot glue labeling;
7. Continuous cam system to ensure high stability;

Specification:

Capacity	40 Carton/Min
Carton Storage	100 pcs
Carton Size	L280-500* W200-400* H200-400 (mm)
Voltage Supply/Power	380V/ 4.7KW
Air Consumption	800NL/MIN
Machine Size	L3540 * W1250 * H1840(mm)
